

CorgiAI

WHITEPAPER

Abstract

CorgiAI is a community driven AI project centered around the creation of a tight knitted family - hard working corporate Corgis by day, party Corgis by night.

All Corgis are welcome to be part of the club, a place for all the Corgis to unwind, let loose and unleash their creativity onto Cronos, gathered for a common purpose of enjoyment and community building in the bear market!

As a team, we're community first as much as we are dedicated to the furthering of cryptocurrency and groundbreaking technology. That is why we've decided to launch CorgiAI, leveraging AI to build tools that will further push the boundary of community building.

Goals

Here at CorgiAI, we believe in dreaming big. As a community, we believe that our goals should be:

1

To expand and become the #1 community token in the Cronos ecosystem and beyond

2

Bring a new dimension of fun to community building with innovative features and AI

3

To build our project into a place for creative thinkers on Web3 to explore AI, have fun and enjoy great conversations.

Team

Our team consists of seasoned builders and top tier marketing individuals in the cryptocurrency space. As mentioned above, we are all highly dedicated towards seeing cryptocurrency communities and great technology converge - we believe that is the beating heart of what makes cryptocurrency beautiful. We welcome all of you to join us on our journey as we break creative barriers and push boundaries.

Ecosystem

We are first and foremost a community that seeks creativity and fun - and you'll find that in all that we aim to do! AI plays a central role here in CorgiAI. Our team has always been exploring what makes people tick in this space, and we believe that AI can act as a powerful tool for enablement. All these exciting features will be available on our Club's official website.

\$CORGIAI Staking

Our community will be able to stake \$CORGIAI to earn rewards. The team will constantly be assessing how we can further improve our staking process as the project progresses.

Ecosystem

Milestone Burns

Token burns will be conducted for important milestones. We believe that as a team, burns signal our confidence to the community in the project and greatly aid in overall token health.

Champagne Popping

A fun widget for our community to utilise for some fun after a hard day of work. Spend some \$CORGIAI to ball and pop some champagne on our site!

Ecosystem

AI Community NFT and Art Gallery

The team aims to explore the creation of AI powered NFTs that allow our users to express their own thinking into the creation of their personal art piece. We see this as the first step towards embracing the AI movement.

AI Job Board

We believe in community empowerment! This AI job board will serve as a central hub for all Corgis to post and complete requests from other community members - all with the power of AI. This includes things like completing tasks with AI, prompt engineering for AI bots and so forth.

At the same time, it allows for our community to have real opportunities to upskill themselves as AI technology advances.

Tokenomics

\$CORGIAl is the core token used within the CorgiAl ecosystem. We want \$CORGIAl to be at the heart and centre of everything that we do here. What this means is that \$CORGIAl will be equipped with staking utility and will be used as a purchasing token for all upcoming CorgiAl related initiatives on our roadmap. A portion of the tokens will also be reserved on Ethereum too. Stay tuned for more updates.

A total of 500,000,000,000 (500 billion) \$CORGIAl tokens will be allocated as follows:

CATEGORY	ALLOCATION	SUPPLY	USAGE
Community Management	65%	325,000,000,000	Reserved for marketing, operations and partnerships
Liquidity Management	35%	175,000,000,000	Reserved for liquidity management and community incentives

Roadmap

Phase 1

**CorgiAI Social Club
Soft Opening on Social Media**

**Launch CorgiAI Social Club
Web App**

\$CORGIAI Token Launch

\$CORGIAI Token Listing on DEX

Activate Liquidity Mine

Staking with Corgi's friends

Limited Edition Mint

Airdrop to Corgi's friends

Milestone Token Burns

"Champagne" in the club

Phase 2

**Corgi CRE8R
(Community Driven NFT)**

**Corgi Louvre Museum
(NFT Gallery)**

**Don't let your boss know
(AI Marketplace)**

Referral Mechanism

Risk Disclosures

Always consult your own advisors concerning the legal and tax implications and for any other advice you may need related to your use of the CorgiAI platform and any CorgiAI tokens (“\$CORGIAI”).

Purchasing or staking any \$CORGIAI involves an element of risk and may lead to the loss of a part or the whole of the principal amount or deposit advanced. Before purchasing or staking any \$CORGIAI, diligently and thoroughly assess and consider the risks, including but not limited to the risks identified below, and decide whether purchasing or staking any \$CORGIAI would be in line with your risk profile and risk appetite.

This Whitepaper does not constitute a prospectus and does not constitute an offer of financial instruments and/or securities to the public or any offer in any way connected to a collective investment scheme. This Whitepaper, the \$CORGIAI and the use, holding and trading of the \$CORGIAI carry no rights, whether express or implied, \$CORGIAI do not represent or confer any ownership rights, shares, securities or equivalent rights, intellectual property rights or any other form of participation relating to the token’s issuer or the CorgiAI team (the “Issuer”). This Whitepaper is only up-to-date as of the date of publication, and we make no representation that the information it contains is accurate or complete subsequent to its date of publication.

Crypto assets are not regulated as financial instruments and there is no refund or compensation available from any regulatory bodies. \$CORGIAI do not give the holder thereof any entitlement to acquire any such interest or entitlement in respect of the Issuer. Furthermore, the Issuer is not obliged in any way to return any investment made in \$CORGIAI. **THE UTILITY OF \$CORGIAI OR OF THE PROJECT DESCRIBED IN THIS WHITEPAPER ARE NOT GUARANTEED TO BE DELIVERED.**

Risk Disclosures

Below is a non-exhaustive list of risk factors to consider in relation to trading and/or using \$CORGIAl and otherwise participating in the project. These risks should be taken into consideration alongside all other information provided in the Whitepaper and participants are recommended to seek advice from their professional advisers (including their financial, accounting, legal, tax, or technical advisers or experts). Risks include, without limitation:

- Partial or total loss of the invested amount;
- Extreme volatility with respect to market behaviour, market forces, transaction parameters and value attributed to virtual assets;
- Market misconduct by participants, including, without limitation, market manipulation, trading on the basis of non-public information, and front running;
- Denial of service attacks, Sybil attacks, spoofing, smurfing, virus attacks and any other similar events against the tokens or the underlying technology;
- Security flaws, defects, vulnerabilities, hacks, exploits, errors, changes, incompatibility or unforeseen circumstances affecting the token's smart contract, the project's website or the technology which the project depends on;
- Delisting or a collapse in liquidity with respect to the tokens;
- Counterparty risk;
- Decentralisation, including decentralised decision-making;
- Loss or compromise of private keys;
- Regulatory uncertainty, changes and enforcement action against certain tokens, projects or persons involved in crypto activities, including, without limitation, the prohibition of digital assets in certain jurisdictions;
- Internet transmission risks, failure of hardware or failure of software or other technologies on which the tokens and project may rely; and
- Delays in or complete failure of virtual asset transactions being confirmed.

This list of potential risks is not exhaustive and is not intended to capture the extent of all possible risks. In the event of any of the above occurring, you may lose your virtual assets entirely. Participants should consider all of the above and assess the nature of, and their own appetite for relevant risks independently and consult their own professional advisers before making any decisions to participate in the project. **PARTICIPANTS INTERACT WITH THE PROJECT AT THEIR OWN RISK. WE STRONGLY URGE YOU NOT TO PURCHASE OR STAKE ANY \$CORGIAl IF YOU ARE UNCERTAIN ABOUT ANYTHING IN THIS WHITEPAPER OR IF YOU ARE NOT PREPARED TO LOSE THE MONEY YOU SPENT PURCHASING OR STAKING \$CORGIAl.**
